

## Terrorism Trends & Tactics Workshop

The South Carolina Fire Academy is partnering with the United States Secret Service-Critical Protective Analysis Group to offer a free *virtual* workshop on terrorist trends and tactics. This workshop will include discussions on the following topics:

- |  |                              |
|--|------------------------------|
| Pre-operation surveillance                 | Motorcade attacks            |
| Penetrating perimeter security             | Coordinated attacks          |
| Improvised explosive devices               | Domestic terrorism           |
| Vehicle-borne improvised explosive devices | Homegrown violent extremists |
| Diversionary/secondary attacks             | Chemical/biological attacks  |

### Registration Information

Wednesday, October 7, 2020

8:30 a.m

<https://fire.llr.sc.gov/Portal/Registration/registration.aspx?crsidnt=69846>

Target Audience: All S.C. fire, police, EMS and dispatch personnel.

**Note:** Students who are pre-registered, and attend the workshop, receive SCFA transcript credit.

Questions? Contact [Amy Williamson](#).

### About the Presenters

The Critical Protective Analysis Group, a subcomponent of the Protective Intelligence Division's Foreign Assessment Branch, has the mission of reviewing, evaluating, and disseminating intelligence regarding significant incidents and attacks by terrorist groups or individuals, including weapons, tactics, concealment methods, pre-operational planning, surveillance techniques, and evolving trends and technology.
