

# VIRTUAL LEADERSHIP TRAINING SERIES

The South Carolina Fire Academy presents a virtual workshop centered around fire service leadership training. This live, instructor-led workshop will be offered on a virtual platform. For your convenience, the event will also be recorded and posted for later viewing.

## Compassionate Leadership

The fire service has traditionally been led by chiefs utilizing the command and control model of management - if I say "jump," you ask "how high?" What if there was another way? What if you could show your team "compassionate leadership" and still get results? This program, led by two South Carolina fire chiefs, will talk you through the concept of leading with compassion.
