

National Fallen Firefighter Foundation - Everyone Goes Home Training Programs Free Train-the-Trainer Virtual Course

The South Carolina Fire Academy is partnering with the National Fallen Firefighter Foundation to offer a free, half-day train-the-trainer virtual course. Fire instructors who attend will become certified to teach the following four “Everyone Goes Home” training programs within their departments:

Courage to Be Safe®	This course is a provocative and moving presentation by the National Fallen Firefighters Foundation, through the Everyone Goes Home® Program, that is designed to change the culture of accepting the loss of firefighters as a normal occurrence. Building on the untold story of line of duty death survivors, it reveals how family members must live with the consequences of a firefighter death. This presentation provides a focus on the need for firefighters and officers to change fundamental attitudes and behaviors in order to prevent line of duty deaths. The central theme promotes the courage to do the right thing in order to protect yourself and other firefighters and ensure that “Everyone Goes Home” at the end of the day.
Leadership, Accountability, Culture, Knowledge (LACK)	This compelling presentation by the National Fallen Firefighter Foundation examines the root causes of LODDs and the role of Leadership, Accountability, Culture and Knowledge as it influences the end result. Many fire departments across the United States “LACK the Right Stuff” to prevent them from being on a path to a line of duty death, with Leadership, Accountability, Culture and Knowledge being the elements that need to be addressed and managed in those environments. Through education and training, those departments can improve their survivability by understanding the root causes of firefighter fatalities and tackling these four elements with special emphasis on understanding fire service culture.
Leadership So Everyone Goes Home	A course of the Everyone Goes Home® Program of the National Fallen Firefighters Foundation designed to assist in the reduction of LODDs utilizing a series of case studies. Each study will include what happened, why it happened, what could have avoided it, were safety measures available and used, and how can we prevent this in the future. The benefit of this program is the review of cultural change or adaptive challenge, rather than just enacting a technical fix, which in most cases does not work. A great program for senior fire officers and administrative officers. This is learning from actual incidents!
Attributes of Leading	Attributes of Leading is a highly interactive, practical, case study-based course focusing on six qualities of leading: competence, grit, wellness, trust, humility, and self-regulation. Attributes of Leading is designed to build more effective fire service leaders of all ranks. Through a process of view, review, introspection, and discussion, the program seeks to stimulate leaders to focus on qualities that constructively influence members regarding overall performance, health and safety.

DATE: Thursday, Jan. 21, 2021

TIME: 1 p.m. – 5 p.m.

ATTENDEES: Limited to active SCFA credentialed instructors who have completed the 4174-New Instructor Orientation program

VIRTUAL EVENT: Attendees will receive an agenda and access link prior to the event.

REGISTER: 9022-21-001
