

Fire Instructor Workshop

Thursday, July 22, 2021

CONTINUOUS DEVELOPMENT & IMPROVEMENT

In an effort to reinvest back into our instructors and provide continuous learning opportunities, the South Carolina Fire Academy will host a free **virtual** Instructor Development Workshop.

Are Your Live Fire Training Events Dangerous?

Whether you are conducting live-fire training events with “in-house” instructors, using a training provider, or attending a state fire academy or institution, it is incumbent upon all leadership and instructors to ensure that the training provided to their emergency responders and students is safe and effective.

This workshop will cover the importance of ensuring live-fire training events are compliant with the latest NFPA industry standards, as well as the OSHA regulation on fire brigades for those teaching industrial students. Additional topics include: written pre-burn plans, pre-fire safety walk-throughs, limitation of live victims, positional duties for live-fire events, accountability, PPE inspections, lead instructor requirements, and instructor to student ratios.

The following standards and regulations will be referenced:

- OSHA 1910.156; Fire Brigades for Institutional Instructors
- NFPA 1041 Fire and Emergency Services Instructor Professional Qualifications
- NFPA 1403 Standard on Live Fire Training Evolutions (Fixed-Facility)
- NFPA 1081 Facility Fire Brigade Member Professional Qualifications

Date: Thursday, July 22, 2021

Time: 10 a.m. - 3 p.m.

Attendees: Limited to active SCFA credentialed instructors who have completed the 4174-New Instructor Orientation program

Virtual event: Attendees will receive an agenda and access link prior to the event.

Register: 6400-22-001

Questions? Contact your [regional coordinator](#)

Travis Carricato has been a member of the fire service for over 27 years. He recently retired as an Operations Division Chief with the Columbia (SC) Fire Department. He served as a member of SC-TF1 for over nine years, rising to the position of Task Force Leader. Carricato is also the principal owner of E-Med Training Services, LLC and BrigadeIQ.com which specializes in Emergency Response training and compliance solutions for the industrial sector. An accomplished speaker and instructor, he has delivered training programs nationally as well as internationally in Russia, Saudi Arabia, China, and Kuwait.

Jeremy Boyle is a Battalion Chief with the City of Columbia Fire Department with over 24 years of firefighting experience. He has instructor specialties in Industrial Fire Brigades, HazMat, Emergency Medical Response, and Instructor Development and is the senior instructor-trainer for E-Med Training Services. Boyle has extensive instructional experience domestically, as well as internationally, teaching several industrial response courses in the Russian Federation for E-Med Training Services.
