5241: Fire and Life Safety Educator Quarterly Training**Monday, February 26, 2024****9 a.m. - 4 p.m.**

This seven-hour course addresses the job performance requirements outlined in NFPA 1035 (Fire and Life Safety Educator). In addition to continuing education for fire and life safety educators, there will be updates on state programs and opportunities for professional networking. This course is also appropriate for public educators who work with law enforcement and emergency medical services.

Topic: Improving the Process of Your CRR Interventions

Improving the process of CRR interventions is essential for measuring its effectiveness, optimizing your resources, and increasing community engagement, long-term sustainability, and accountability.

This training class will provide an overarching view of resources for code officials, public educators, medical responders, and public and private sector responders.

8:30 - 9:00	Registration	Community Risk Reduction Staff
9:00 - 10:00	Introduction & Agenda - Updates	Community Risk Reduction Staff
10:00 - 10:15	Networking /Break / Q&A

2:30 - 2:45	Networking / Break / Q&A	
2:45 - 3:15	CRR Engine Company Training	Rickie Jenkins, Chief Fire Marshal Dorchester County Fire-Rescue
3:15 - 3:45	Sumter Fire Dept. - Glows & Grows	Lt. Selena Ruth Smith Sumter Fire Department
3:45 - 4:00	Closing remarks	State Fire / CRR Staff

OBJECTIVE: Learn about some of the implementation processes and successes of actual current fire departments' community risk reduction interventions. Emphasize what have been successful interventions and ways to measure their overall impact on reducing risks within the community. Fire and life safety educators trained in planning, organizing, training, equipping, exercising, evaluating, and taking proper corrective actions can help communities become more resilient and capable of withstanding potentially destructive events.
