2024 V-SAFE Grant Cycle

For the 2024 V-SAFE grant cycle, a total of \$5,192,480 was awarded to 391 eligible volunteer and combination South Carolina fire departments in 44 counties. The number of awards increased by three percent from last year.

The program provides an equal distribution of available funds to fire departments after they meet the eligibility criteria defined in law and submit a funding application. The Peer Review Panel serves as an oversight panel to ensure compliance, relevance, and adherence to the prescribed intent outlined in state law.

The State Fire Marshal determines the value of the annual maximum amount of grant funding an eligible fire department may receive, based on the total amount of grant funding received divided by the total number of eligible fire departments. To accomplish this, a "Notice of Intent to Apply" for funding must be submitted via the grant application portal.

Of the 393 fire departments eligible to file the Notice of Intent to Apply, SC State Fire received 392 notices (99.7 percent).

Using the number of fire departments that gave Notice of Intent to apply for funding, it was determined the maximum amount of each award would be \$13,280. Additionally of the 393 eligible fire departments that filed a Notice of Intent:

- 391 fire departments from 44 counties completed the application for grant funding.
- The two remaining departments updated their roster and no longer qualified.
- Ultimately, 99 percent of fire departments who filed a Notice of Intent received grant funding.

Funding for the 2024 grant cycle included the statutory funding provided in §38-7-20(B)(2) and \$3,000,000 in non-recurring funds from the General Fund. Grants were awarded for equipment in various categories including protective clothing, fire suppression equipment, safety equipment, rescue equipment, training, emergency response vehicles, new and used fire apparatus, self-contained breathing apparatus, communications equipment, decontamination equipment, medical equipment, hazardous materials mitigation equipment, portable air filling systems, and improvements to fire stations.

The following list is in alpha-order (by county) and contains the names of fire departments receiving a V-SAFE grant award of \$13,280 each.

2024 V-SAFE Grant Recipients
