

Probie-Level Probate

The unfortunate reality is that everyone will likely deal with post-death issues of loved ones. Another equal reality is that few people understand the importance of having proper Probate documentation and how Probate Court works. Due to the risks faced by those serving in Public Safety, it is especially important that we have proper documentation in order for our loved ones left behind. Members of the Public Safety Community often must also coordinate estate issues left behind by parents and other family members. Navigating Probate issues can be a daunting task and become even more complex when documentation such as *Wills* and *Powers of Attorney* are never completed.

This free, in-person workshop will provide some important foundational Probate principals that every *First Responder* should know and will be delivered by a practicing Probate judge along with legal counsel who handles Probate-related issues presented in a simple, *Probie-level* format. There will be a time for question-and-answer at the end of the presentation.
