

Survivability: Give Them a Fighting Chance

Survivability is more than just being in the right place at the right time. There are countless factors that affect our ability to successfully intervene and save a life in a fire. This *virtual* workshop is designed to provide a blend of real-world experiences with the latest in survivability studies to give you and your department the best chance for making effective rescues at fires. Attendees will learn a framework for decision making, as [featured in Fire Engineering](#) magazine that has been vetted by fire service leaders and is designed for everyone on the job, from chief officers to tailboard firefighters.

Registration Information

Date: Tuesday, Nov. 12, 2024

Time: 2- 4 p.m.

Virtual Event: Attendees will receive an access link prior to the event.

Registration Fee: \$5 (Agencies will receive an invoice for “no show” students.)

Registration Link: 8656-25w01 <https://fire.llr.sc.gov/Portal/Registration/registration.aspx?crsidnt=82554>

Note: When completing your registration, you will be prompted to enter your Fire Department name. Click to search, and select the appropriate agency. If your agency is not listed, contact amy.williamson@llr.sc.gov.

About the Presenter

Andrew Morris joined the fire service in 2006 with the City of Newberry Fire Department, where he worked as Captain. In 2022, Morris pursued a role with the Columbia-Richland Fire Department where he now works as a Senior Firefighter and is assigned to Rescue 1. Morris served as chair of the South Carolina Firefighters’ Association Officers Section for two terms and worked to develop Fire Officer development throughout the state. His concepts on Survivability Profiling have been vetted by peers and FDNY Battalion Chiefs, and published in *Fire Engineering*.
