3331-Auto Extrication Operations Course Offering

This three-day, 24-hour course presents advanced passenger vehicle extrication techniques. Students will learn to stabilize, lift, and remove patients when vehicles are positioned on their wheels, side, or roof. Key skills include developing incident action plans, addressing scene safety, isolating hazardous energy and onboard safety systems, tunneling, third-door removal, and creating viable access and egress points.

Instruction expands into advanced cutting, lifting, and tunneling operations, with emphasis on tool selection, placement, and team coordination. Students will also practice patient-centered approaches in complex rescue environments.

Don't miss this opportunity to sharpen your skills, gain confidence, and improve performance in challenging auto extrication scenarios.

Prerequisite: 3330-Basic Auto Extrication

Location: SC State Fire Campus
141 Monticello Trail
Columbia, SC 29203

Fee: \$108, lunch on Friday included. Dorm rooms are available for an additional cost, if needed.

Note: The cafeteria will be closed on Saturday and Sunday. Students should plan their meals accordingly.
