

South Carolina's Premiere Fire-Rescue Special Operations Conference

presented by the
South Carolina Fire Academy
Columbia, S.C.
April 18-19, 2026

Registration: Register for each class via the attached registration form. Email the completed form as a PDF attachment to cristina.facchini@lfr.sc.gov

The deadline to register is Wednesday, March 25, 2026. **NOTE:** All prerequisites must be listed on the student's SC Fire Academy transcript.

Fee: The pre-paid, non-refundable conference fee is \$75, and is billed at the time of registration. This fee includes 16 hours of training, as well as breakfast and lunch in the cafeteria Saturday and Sunday. Dinner is on your own.

Dormitory: If you would like to stay on campus, the SC Fire Academy dormitory is double-occupancy for \$25/night. Request your room on the attached registration form. Prefer to stay off-site? VISIT: [Partner Hotel Information](#)

WEEKEND LEARNING AGENDA

OPENING SESSION Join us Saturday, April 18 at 8 a.m. in the Denny Auditorium for the opening session prior to classes starting.

Dates/Times	Class Name and Description	Prerequisites	Bring to Class
Saturday and Sunday April 18-19 8 a.m.-5 p.m.	Tactical Emergency Medical Support: Active Threat Response (8825-26001) 16-hour course, hands-on Instructors: Valkyrie Tactical Solutions & Palmetto Fire Tactics Tactical Emergency Medical Support (TEMS) for active threat response involves integrating Fire & EMS into tactical operations. This multi-agency training program is designed to develop, refine, and produce successful Rescue Task Force Teams and TEMS Operators. By bridging the gap, we bring together all agencies as one Team, one Fight. Students will learn tactics and concepts to prepare for Active Shooter Incidents & Acts of Violence. We use the lessons learned from our Military and apply them to the civilian world of Tactical Medicine.	N/A	RTF Gear- optional

Dates/Times	Class Name and Description	Prerequisites	Bring to Class
Saturday and Sunday April 18-19 8 a.m.-5 p.m.	Fire Service Elevator Rescue (8798-26001) 16-hour course, hands-on Instructors: Clark Fire & Safety Training, LLC This course will cover Awareness and Operations level knowledge and skills. Includes intro to ASME A17.4 "Guide for Emergency Personnel", best practices, drive systems, elevator components, power control, opening hoist way doors, opening car doors to include (restrictors if present). Fire Service Phase I and II controls. Poling and top-exit drill. <i>Note: Students must provide their own transportation off-campus for the hands-on training.</i>	1153-Firefighter 1	Head, hand, foot and eye protection. No shorts or open-toe footwear.
Saturday and Sunday April 18-19 8 a.m.-5 p.m.	Advanced Artificial High Directional Workshop (8822-26001) 16-hour course, hands-on Instructors: Craft Rescue This course offers students definitive instruction on the deployment, capabilities, and limitations of various AHDs. These include advanced anchoring, knot craft, and back ties. Topics include using and deploying CMC AZ Vortex, SMC Terradaptor, and lashed wooden frames. Progression of frames begins with mono-pod variations and progresses through bipod and tripod configurations. Student-requested advanced frame sets may include the use of AZ Doortex, floating frames, tension-supported SA frames, AZ Floortex, V-frames, and other requested variants.	3316-High Angle Rope Rescue	PPE to include helmet, gloves, and harness
Saturday and Sunday April 18-19 8 a.m.-5 p.m.	Rescues Gone Wrong (8827-26001) 16-hour course, hands-on Instructors: Capital Technical Rescue and Safety Consultants, LLC Students will be given a scenario that their team must solve, and once completed, a failure will be introduced that your team must work through to resolve the scenario safely. The skill sets rescuers need for this program are outside of what most rope rescue courses cover, as they are too heavily team-based.	3310-Rope Rescue Technician	Rope / Confined Space PPE - helmets, class 3 harnesses, gloves, appropriate footwear
Saturday and Sunday April 18-19 8 a.m.-5 p.m.	Engine Company Shoring Operations (8836-26001) 16-hour course, lecture and hands-on Instructors: SC-Task Force 1 This class introduces the student to shoring in light-frame and ordinary constructed buildings. Hazard identification, hazard assessment and mitigation techniques along with basic shoring systems for stabilizing these types of structures are presented and constructed in the field. Wood shoring as well as pneumatic shoring systems will also be presented.	1153-Firefighter I <i>and</i> 3310-Rope Rescue Technician	Steel toe footwear, rescue style helmet, long sleeve shirt/ BDU or work pants/ work gloves.

Dates/Times	Class Name and Description	Prerequisites	Bring to Class
Saturday and Sunday April 18-19 8 a.m.-5 p.m.	School Bus Extrication (8837-26001) 16-hour course, lecture and hands-on Instructor: Keith Wilson This program is designed present techniques and tips that can assist the rescuer in extricating a patient trapped in School Buses. During the classroom portion, we are going to first take a look school bus type, construction standards, and anatomy and extrication techniques. We will discuss scene approach, hazards, and stabilization of a school bus. Multi-passenger vehicles present us with quite a different challenge; this course will assist the rescuer in developing critical thinking skills.	3330-Basic Auto Extrication	Head, Eye, Hand and Foot protection, long sleeves in the form of extrication gear or turnout gear or coveralls
Saturday April 18 8 a.m.-5 p.m.	HazMat Hot Zone Survival (8838-26001) 8-hour course, hands-on Instructors: Safeware Inc. This course will help prepare hazardous materials personnel to avoid an in-suit emergency and prepare them to respond to an emergency in the hot-zone including self-rescue and buddy-aid tactics.	2723-Hazardous Materials Technician	N/A
Saturday April 18 8 a.m.-5 p.m.	Physical and Chemical Properties for Risk Based Response (8839-26001) 8-hour course, lecture and hands-on Instructors: Emergency Response Training Group LLC Participants will witness the dynamic tendencies of hazardous materials brought to life through Physical and Chemical Properties demonstrations. During this lecture, flash point, flammable range, boiling point, vapor pressure, auto ignition temperature, molecular weight, vapor density, and solubility will be demonstrated. This lecture will also demonstrate the properties of liquefied compressed gases as well as cryogenics. These high energy fast paced demonstrations will leave students with a keen awareness of fire behavior and hazardous materials. Participants will have a better understanding of how to apply physical and chemical properties to fire behavior and hazard assessments.	N/A	N/A
Sunday April 19 8 a.m.-5 p.m.	E-Plan: Accessing Chemical and Facility Hazard Data for Emergency Response (8840-26001) 8-hour course, lecture Instructors: E-Plan This course introduces E-Plan, the nation's largest database of chemical and facility hazard information, covering over 400,000 facilities and 24,000 unique chemicals. Free and easy to use, E-Plan gives first responders and government personnel instant access to critical data such as facility reports, maps, CHRIS data, SDSs, toxic profiles, and ERG pages.	N/A	Bring Your Own Device (computer or iPad)
